

PigFlow: The Point of Care Platform for Pigs®

Empower employees with human centered automation driven by operational intelligence on smart devices, allowing them to efficiently collaborate together, execute tasks, and provide exceptional care.

What We Do

We guide caregivers with directed workflows, driving greater process compliance resulting in increased employee engagement, operational efficiencies, and overall pig care.

Our Results

PigFlow improves barn staff productivity by optimizing breeding herd efficiency and outcomes, to increase pigs weaned per man-hour and drive better margins.

The benefits of automation will directly impact the entire team.

Why Producers Love PigFlow

Real feedback about how our customers elevate their performance and enhance profitability.

"PigFlow has helped us become more efficient and has improved our ability to provide timely care to each sow and her litter. In just 9 months, it has helped our farm go from a 28 PSY farm to a 32 PSY farm."

Fred Kuhr, Dykhuis Farms Inc.

"Discovering a practical solution to improve efficiency and engagement isn't a simple task, yet PigFlow accomplished exactly that for us. Its people first approach to transparency and accountability have given our team the tools to excel, both in and out of the farm."

Erin Brenneman - Brenneman Pork

"PigFlow has given us increased accountability and improved communication with and in our sow farms. This technology has helped make everyone better and as a result we have seen a noticeable increase in production."

Phil Hord, Hord Family Farms
